

Aon Insurance Apprenticeship

Locations:

Few things are certain in life. But you can be 100% sure that a career with Aon will give you all the challenge and support you need to fulfil your potential.

Ours is a professional services organisation of incredible scope and scale. We help the biggest names in business plan for every eventuality – we're the world's #1 insurance broker, the #1 provider of reinsurance, the #1 provider of investment consulting and the #1 provider of human capital consulting.

One of the biggest decisions you'll ever make is whether to start working or carry on studying so you need to be as informed as possible. Join our Insurance Apprenticeship at Aon and you'll develop vital skills, make a head start in your career and learn whilst you earn. It's a brilliant choice.

Insurance and Risk Management are the cornerstones of every company's capital structure. We help our clients identify their risks and ensure they have the best possible cover to mitigate them. As one of our Insurance Apprentices, you'll get to play an increasingly influential role.

Everything we do at Aon is built around delivering client value. As an Apprentice, that's precisely what you'll deliver. Your role will focus on client service administration, supporting the broking and client management activities of more senior team members.

Prepare to make an immediate impact as you demonstrate your passion for customer service. You'll quickly learn about our business and the broking process, develop your professional skills and build strong relationships with clients and colleagues. In return, on top of your salary and benefits, you'll be fully supported to study for ACII professional qualifications.

The exposure you'll get will be second-to-none. From helping in the day-to-day running of client risk and insurance programmes and supporting the broking process to contributing to client retention and satisfaction, you'll have plenty to do and lots to learn.

We'll give you the support you need to make the most of your time with us. As well as your Apprentice network, you can call on your mentor, business seniors and the Early Careers team to help you on your way.

Keen to learn more? Then why not pay us a visit at www.aonearlycareers.co.uk and find out more.
